

REMARKS

This supplemental amendment is being filed concurrently with the Appeal Brief in the current application, and in order to remove the objections to the specification by adopting the suggestions set forth by the Examiner in the advisory action mailed on May 3, 2004. No amendments have been made to the claims. The applicants respectfully request reconsideration based on the foregoing amendments and these remarks.

Objections to the Specification

The specification was objected to because the trademark JAVATM should be accompanied by generic terminology. In order to overcome the objections and remove this issue from the Appeal Brief that is filed concurrently herewith, the applicants have amended the specification to include such generic terminology, as suggested by the Examiner and as indicated in the above section "Amendments to the Specification." The applicants submit that the specification is thus in allowable form.

Conclusion

The applicants believe that all pending claims are allowable and respectfully request a Notice of Allowance for this application from the Examiner. Should the Examiner believe that a telephone conference would expedite the prosecution of this application, the undersigned can be reached at the telephone number set out below.

Respectfully submitted,
BEYER WEAVER & THOMAS, LLP
